

ETCS - Mobile Training and Simulation

ETCS - Mobile Training and Simulation

Features and Benefits

- Qualify the train drivers, sustain their knowledge and inform them on latest release of standards and procedures.
- Reduced reaction times in solving problems by guided simulation training and direct access to electronic reference guide.
- Increased availability of train drivers by reducing on-site training times.
- Eased learning of additional national and operator specific standards.
- The trainees have the autonomy to prepare themselves at their own speed without direct supervision as the E-learning material is divided in modular successive lessons and is mobile available.

Unique combination of
*Computer-Based
Training and
Guided Simulation.

A Reference Guide
enhance ETCS-related
problem solving skills.

Available
also for
Android platforms.

Automatic Interfaces for
**LMS, **CMS and
Software Deployment
Services.

Support of country
specific learning content
and languages.

Learning offline
and update content
while online

* Computer-Based Training (CBT)

** Learning Management Systems (LMS)

** Learning Management Systems (CMS)
